EDUCATION

B.Tech — CSE
SRM Institute of Science and
Technology
First Year, First Semester (2026–
2030)
Class XII — 86%
Class X — 95%

TECHNICAL SKILLS

C Programming
Core Python
HTML, CSS, JavaScript (learning)
Web3 Fundamentals (learning)

AREAS OF INTEREST

Web Development
Web3 & Blockchain
Software Development
Hackathons & Tech Events
Emerging Technologies

SOFT SKILLS

Quick Learner
Team Collaboration
Curiosity & Initiative
Time Management

PROFILE

First-year B.Tech Computer Science and Engineering student at SRM Institute of Science and Technology with a foundation in C and Core Python. Currently building skills in Web Development, with strong enthusiasm for hands-on learning, collaboration, and technical communities.

OBJECTIVE

To become an active member of CodeKrafters and contribute to the Web Development and Programming domains. Eager to learn from experienced peers, work on real projects, participate in technical events and hackathons, and grow through hands-on, collaborative learning.

WHY CODEKRAFTERS

- Passionate about building real projects in Web Development and exploring the Web3 ecosystem alongside like-minded peers.
- Looking for structured, hands-on exposure to technologies beyond the classroom curriculum.
- Excited to contribute energy and consistency to team projects, hackathons, and club-driven events.
- Motivated to grow from a beginner into a confident contributor through mentorship and practice.

WHAT I BRING

- A strong foundation in C and Core Python, with the discipline to learn new stacks quickly.
- Genuine curiosity about emerging technologies and a habit of self-directed learning.
- Reliability, punctuality, and a collaborative mindset for team-based technical work.

AVAILABILITY

Available to commit consistent weekly hours for club meetings, workshops, and project sprints throughout the academic semester.
